multi-gas detector

Rugged and reliable, the GasAlertQuattro four-gas detector combines a comprehensive range of features with simple one-button operation. With flexible power options, the GasAlertQuattro is always ready. The graphic LCD displays easy to identify icons that indicate operational information, such as bump test and calibration status for simplified onsite auditing. IntelliFlash provides continuous visual confirmation of detector operation and compliance. Suited to a wide range of industrial applications including confined space entry, the GasAlertQuattro is fully compatible with BW's MicroDock Il automatic test and calibration system. GasAlertQuattro has European Performance Approval and MED.

Standard features of BW products:

- · Continuous LCD shows real-time gas concentrations
- · Compact and lightweight design makes it comfortable to wear
- Simple automatic calibration procedure; compatible with BW MicroDock II automatic test and calibration station
- Full function self-test of sensor(s), battery status, circuit integrity and audible/visual alarms on start up and continuous testing on sensor(s)
- Bright wide-angled visual alarm bars
- Built-in concussion-proof boot

GasAlertQuattro Specifications

Size	5.1 x 3.2 x 1.9 in. / 13.0 x 8.1 x 4.7 cm	
Weight	 11.15 oz. / 316 g (with rechargeable battery pack) 11.92 oz. / 338 g (with alkaline battery pack) 	
Temperature	-4 to +122°F / -20 to +50°C	
Humidity	10% - 100% RH (non-condensing)	
Alarms	 Visual (six red LEDs), vibrating, audible (95 dB) Low, High, STEL, TWA, OL (over limit) 	
Tests	Sensor integrity, circuitry, battery and audible/visual alarms on activation, battery (continuous), sensor (continuous)	
Pump	Compatible with the Sampler motorized sampling pump	
Battery life	AA alkaline: 14 hrs (+68 to 122°F / +20 to 50°C) Rechargeable: 20 hrs (+68 to 122°F / +20 to 50°C) 18 hrs (-4 to +32°F / -20 to 0°C)	
User options	Confidence / compliance beep Confidence flash Set STEL interval Sensor on/off Latching alarms Safe display mode Force calibration Auto-zero on start up	Flip display Combustible gas measurement (% LEL or % by volume methane) User-definable calibration gas concentration Force bump Language choices (five) Custom start up message Datalog interval
Ratings	EMI/RFI: Complies with EMC Directive 2004/108/EC IP66/IP67

Additional GasAlertQuattro features:

- Powered by an interchangeable rechargeable battery pack or alkaline pack with 3 AA batteries
- One-button operation and straightforward user interface minimizes training
- Comprehensive datalogging and event logging capacity
- IntelliFlash verifies operation and compliance to both the user and supervisors from up to 20 ft. / 6.1 m
- Enhanced resistance to common industrial cross sensitive gases such as methanol and ethanol (CO and H_2S sensors)
- Multi-language support in English, French, German, Spanish and Portuguese
- Field-proven SureCell sensors offer an unprecedented performance in even the harshest environments.

PRODUCT SHOWCASE

GasAlertQuattro

GasAlertQuattro is a robust and flexible 4-gas portable monitor designed to meet diverse application needs, including even the most challenging environments. Its high performance detection is matched by its ability to reduce ongoing costs, delivering benchmark detection combined with considerable savings over product life.

asAlertQuattro is a rugged and reliable, high performance 4-gas portable gas detector designed to meet the monitoring needs of diverse industries and applications.

This device delivers comprehensive features with simple one-button operation and a large and ultra-bright display showing real-time gas concentrations for Hydrogen Sulphide, Carbon Monoxide, Oxygen and flammable gases. Icons and data are also displayed in large fonts, permitting easy access to device information in any environment.

With flexible power options, AA batteries or a rechargeable battery pack, GasAlertQuattro offers a long run-time and flexible operation, designed to meet extended shift requirements. This device also helps to enhance site safety through the use of clearly visible icons for bump test or calibration needs. Compliance to site standards is also improved through GasAlertQuattro's green LED confidence Intelliflash, providing continuous visual confirmation of the detector's compliance.

Specifically optimised for harsh environments, GasAlertQuattro features a durable exterior with reinforced bumpers and an integral concussion-proof boot that protects the detector. Suited to a wide range of industrial applications including general confined space entry, GasAlertQuattro offers a simple, cost-effective and automatic calibration procedure and is compatible with BW Technologies by Honeywell's MicroDock II automatic test and calibration solution.

The value of GasAlertQuattro

Easy to use:

- Simple, intuitive interface that requires minimal training
- Large button that can be used even when wearing thick work gloves
- Ultra-bright, large backlit LCD display that can be easily read in any environment

Reduces the ongoing cost of gas detection:

- Works "out of the box" and requires minimal training
- Compatible with MicroDock II automatic test and calibration solution, providing quick, simple and highly cost-effective ongoing maintenance
